On the pages of Gods word, reads the blind could see again  
The deaf could hear the lame could walk and run like other men  
I have never seen with these two eyes only pictured in my mind that scene  
But I can tell you all about the things that I've already seen

Chorus:

I've seen Salvation wrapped in Redemption  
I've seen Amazing Grace, enough to cover me  
Rivers of Mercy, that flows from here to eternity  
There are, many Miracles I choose to believe  
But they can't compare to what I've already seen

Since a child I was taught, there is a heaven waiting there  
Street are paved of gold, walls of Jasper everywhere  
I know by faith I will see that place, but until that day I will be  
Sharing to all the things that God has already shown to me....

Chorus
