Friends and loved ones I have cherished  
In sadness, I have said Good-bye  
See I know in My Heart they're waiting for me  
Safely on the other side  
If I could only lift up the veil of life  
Allowed to see beyond my sight  
I'd see them standing there shouting the wins worth the race and everything you have to face

## **Chorus:**

If I could only see, through the Darken Glass  
I would see every trial that I face in this life, never out of his sight  
If my eyes could just see, all that God is really doing for me  
I'd never question the steps of my path  
Although I look darkly through a glass

Have you ever felt like your walking, alone in the dark of the night?  
Or maybe standing in a battlefield? with your enemy right in sight.  
Have you ever wondered about your life?  
Things that you have to go through  
We can only see part of, Gods heavenly plan, while he guides us by his Holy Hands.

## **Chorus:**

If we could only see, through the Darken Glass  
We would see every trial that we face in this life, never out of his sight  
If our eyes could just see, all that, God is doing for you and me  
We'd never question the steps of our path  
Although we look darkly through a glass

## **Bridge:**

Many times we pray but no answer comes our way then question did God hear my prayer.

If we could only look, pass that cloud of disbelief  
We'd know how much God really cares  
Fighting the battles that we cannot see; in warfare beyond our reach.  
We don't live here in Despair, It's just our eyes our unaware  
He has angles camped everywhere.

## **Chorus:**

## **Tag:**

If we could See.....through ... the... darken ...glass....
