I walked in my Darkest Hour not knowing where to go  
My steps, they did falter, but still I walked along  
When trials and Tribulations came, they only made me strong.  
As I look, back on, the life I lived, I found they just were Stepping-stones.

**Chorus:**

They're only Stepping Stones As I climb to the highest Mountain  
Stepping Stones makes the path I walk upon  
They're not there to stop or hinder only to guild me on.  
They're only Stepping Stones that lead me home.

Many times, we face life's problems thinking we've done something wrong.  
When oppositions comes our way that's when we must carry on  
Don't look to them as stumbling blocks standing in your way  
Just take a leap of Faith in God and walk upon them where they lay

**Chorus:**

They're only stepping stones as you climb to the highest mountain  
Stepping-stones make the path you walk upon  
They're not there to stop or hinder only to guide you on  
They're only stepping-stones that lead you home

**Bridge:**

When we cross into glory, we will hear that angelic sound.  
As we walk through the Gates of that City, we'll be standing on Holy Ground  
Surely, we will remember the path we once walked on.  
Only then, we'll fully understand what it took to bring us home.  
Bring us home....

**Chorus**

There're only stepping stones as we climb to the highest mountain  
Stepping-stones make the path we walk upon  
They're not there to stop or hinder only to guide us on  
They're only stepping-stones that lead us home  
They're only Stepping Stones that lead us home.  
They're only Stepping-stones -- that leads us home.
