Have you ever felt like your life's in a mess?
Because everywhere you turn, it seems your put to a test
Nothing ever seems to work out the way that you've planned
You wanna throw your hands up straight in the air
Saying, why do I try? Does anyone really care?
But deep in your heart you know the answer to the question will be.

Chorus:

You gotta live it down here, if you wanna have it up there
You gotta live it down here, even when things seems so unfair
When life throws you a curve, in this mixed up world
Shattering all of your Dreams,
You gotta run with faith
Till you finish your race.
But first if you want it up there
You gotta live it down here
Oh, oh,
You gotta live it down here.

Now have you ever felt like you should just walk away?
Ignoring everything that life has stacked on your plate
Asking many questions like who, when, where and why.
That's when the spirit of God sweeps down on you.
Whispering words of hope, and showing you what to do.
Then all of a sudden, there's the answer that you already knew.

Chorus:

Chorus:

Oh, oh,
You gotta live it down here
Oh, oh,
You gotta live it down here
Oh oh
You gotta live it down here
Oh, oh\
You gotta live it down here
